

Lodgepole Voyage 210 miles

Race start: 5:00 am Saturday, at Spearfish City Park: All riders are required to start with a front and blinking rear light ON!

Checkpoints: These checkpoints are the only place on the course where you will be allowed to meet your support crew. They may supply you with food, water, and mechanical help. There is **very limited cell reception on course**, but each of these establishments has a landline where you may call your support person if needed for a charge of \$5. Each checkpoint also has a cut-off time that we ask you to honor. We will have a sag person out on course that "may" be able to get you to the nearest checkpoint should you break down or get hurt, however don't count on this and be aware that you may be walking to the nearest checkpoint. Once you get to a checkpoint you must have a support person to pick you up if you are unable to finish the ride.
